

SUMMARY

GIS and Spatial Data professional with experience in national-scale SDI implementation, geospatial system architecture, and transportation analytics. Skilled in Python, SQL/PostGIS, GeoServer, and enterprise GIS workflows, with experience in integrating and analyzing large spatial and transportation datasets. Experienced in preparing system design and integration documentation and translating institutional requirements into operational geo-platforms. Proven ability to lead multi-stakeholder projects and deliver sustainable capacity-building programs.

Technical Skills

- Python
- PostresSQL / PostGIS
- GIS Softwares: QGIS & ArcGIS
- GDAL
- GeoNode
- GeoServer
- Microsoft Office Excel

EDUCATION

Bar-Ilan University

Certified Data Scientist with Expertise in Generative AI and AI Agents
2025 – Present

Tel-Aviv University

Master's Degree in Geography with thesis in Geosimulation lab.
2022 – 2024

Tel-Aviv University

Bachelor's Degree in Geography & Middle Eastern Studies
2018 – 2022

OTHER SKILLS

- Spatial Data Modeling
- GeoSpatial System Architecture Design
- Data Governance & Standards
- Agile Project Management
- Cross-Government Stakeholder Coordination

LANGUAGES

- Hebrew – Mother tongue.
- English – Fluent Professional Level
- Portuguese – Good Level.
- Arabic (Formal) – Basic.

PROFESSIONAL EXPERIENCE

GIS Project Manager

Sivan Design D.S LTD | Israel / Zanzibar / Nigeria | 2025 – Present

- Leading the implementation of national and state-level Spatial Data Infrastructures (SDI), including ZanSDI (Zanzibar) and Ogun State SDI.
- Leading technical teams and developers to deliver solutions aligned with business needs, operational requirements, and stakeholder expectations, while coordinating development workflows.
- Preparing technical documentation, including system design reports, integration specifications, data model design, and system architecture documentation for multi-machine environments.
- Supervising deployment and integration of an open-source GIS technology stack, including GeoNode, GeoServer, and PostGIS.
- Designed data schemas and metadata structures for government datasets.
- Coordinated integration with external APIs and authentication services.
- Delivering capacity-building programs to ensure sustainable local ownership.

Transportation Data Analyst & GIS Data Manager

Tel Aviv-Yafo Municipality, Tel-Aviv | 2022 – 2025

- Integrated transportation and micromobility datasets (GTFS, SIRI, e-scooters trajectories and locations, vehicle counts).
- Delivered spatial analyses, maps, dashboards, and reports to support planning and operations.
- Automated data processing using Python, GIS, and database tools.

Teaching Assistant

Tel Aviv University, Tel-Aviv | 2024

- GIS courses in Geography Depaerture; lectures, assignments preparation, and review

Geospatial Analyst & Researcher

Freelance | 2023

- Conducted Big Data analysis of shared e-scooter datasets, including data cleaning, processing, and spatial analysis.
- Developed visualizations and policy-oriented insights to support urban transportation planning and decision-making.

Research Assitant

Geo-Simulation Lab. Tel-Aviv University, Tel-Aviv | 2021 – 2022

- Participated in a joint research with the University of Manchester.

Geospatial Data Analyst

Competition Authority, Jerusalem | 2021 – 2022

- Applied geographic principles in departmental research projects.
- Utilized GIS tools and methodologies, to enhance desicion-making

GIS Operator

Ministry of Environmental Protection, Jerusalem | 2020 – 2021

- Managed and enhanced GIS data for the Environmental Planning Dept.

CONFERENCES

- **The 3rd Annual & Students Conference Of The Israeli Smart Transportation Research Center (June 2023) - Presentation**
“On the Way to the Optimal Urban Micro-Mobility Policy: The Use of the Shared Dockless E-Scooters in Tel-Aviv”.
Ofer Shahal, Aleksey Ogulenko, Arik Talor, Itzhak Benenson
 - **18th Conference on Location Based Services, Ghent, Belgium (November 2023) - Online Presentation (Best papers section)**
“Shared Dockless E-Scooters in the City: System Analysis and the Novel Management Policy”
Ofer Shahal, Aleksey Ogulenko, Arik Talor, Itzhak Benenson
 - **Israeli Regional Science Annual Conference, Tel Aviv, Israel (April 2024) - Presentation**
“Towards a Sustainable City Policy for Managing Shared Dockless E-Scooters”
Ofer Shahal, Aleksey Ogulenko, Itzhak Benenson
 - **The 13th International Workshop on Agent-based Mobility, Traffic and Transportation Models, Methodologies and Applications (ABMTrans2024), Hasselt, Belgium (April 2024) - Presentation**
“Towards a Sustainable City Policy for Managing Shared Dockless E-Scooters”
Ofer Shahal, Aleksey Ogulenko, Arik Talor, Itzhak Benenson
-
